```

should we fix this assertion?

#3 - 03/09/2015 02:43 PM - Greg Farnum

We talked about this briefly in standup. It looks like we can just toss this state out and try again, probably setting ourselves laggy until we get an ack with our new timestamps.

#4 - 03/13/2015 01:12 AM - Zheng Yan

- Status changed from *Verified* to *Need Review*

#5 - 03/16/2015 05:41 PM - Loic Dachary

- Status changed from *Need Review* to *Testing*

- Assignee set to *Zheng Yan*

- % Done changed from 0 to 80

- Backport set to *firefly*

#6 - 03/16/2015 05:42 PM - Loic Dachary

- firefly backport <https://github.com/ceph/ceph/pull/3970>
- giant backport <https://github.com/ceph/ceph/pull/3971>
- dumpling backport <https://github.com/ceph/ceph/pull/3969>

#7 - 03/16/2015 05:43 PM - Loic Dachary

- Description updated

#8 - 03/16/2015 05:53 PM - Greg Farnum

- Backport changed from *firefly* to *dumpling*, *emperor*, *firefly*, *giant*

#9 - 03/19/2015 10:36 PM - Greg Farnum

- Status changed from *Testing* to *Resolved*

These PRs all got merged.

#10 - 04/13/2015 09:53 PM - Yuri Weinstein

- Status changed from *Resolved* to *New*

#11 - 04/13/2015 09:55 PM - Yuri Weinstein

- *ceph-qa-suite upgrade/dumpling-firefly-x added*

#12 - 04/13/2015 10:32 PM - John Spray

The stack trace appears to be from Cuttlefish, to which the fix wasn't backported.

It's annoying that we would have to fix this in such an old branch just to make the upgrade tests happy.

Is it possible that there is more of an infrastructure issue here if clocks are jumping around enough to trigger the bug?

#13 - 04/13/2015 10:34 PM - Greg Farnum

- *Status changed from New to Resolved*

Yeah, we're not doing anything with this. I'm confused why cuttlefish is running at all though, since it's pre-dumpling...
