original description

Hi,

in Jewel 10.2.3 I found two bugs in the detecting of down OSDs. As far as I see there are two pull requests which fix the issues. Is it possible to backport this PRs to a jewel bugfix release?

<https://github.com/ceph/ceph/commit/a80d6c500ab247013a1c068c457c1b9b9b9c750b2>

<https://github.com/ceph/ceph/commit/7ac5ca5698cfdaab019bf282b537bcc897f9444c>

Maybe the documentation <http://docs.ceph.com/docs/jewel/rados/configuration/mon-osd-interaction/#osds-report-down-osds> needs some updates as well.

#5 - 12/27/2016 09:39 AM - Nathan Cutler

<https://github.com/ceph/ceph/commit/7ac5ca5698cfdaab019bf282b537bcc897f9444c> is [#17055](#) and was already backported in [#17056](#).

#6 - 12/27/2016 09:41 AM - Nathan Cutler

Maybe the documentation <http://docs.ceph.com/docs/jewel/rados/configuration/mon-osd-interaction/#osds-report-down-osds> needs some updates as well.

@Manuel: Which updates would you suggest?

#7 - 12/27/2016 09:43 AM - Nathan Cutler

- Description updated
- Status changed from New to In Progress

#8 - 12/27/2016 09:49 AM - Nathan Cutler

- Subject changed from *ceph osd down detection behaviour* to *jewel: ceph osd down detection behaviour*

#9 - 02/01/2017 11:31 AM - Nathan Cutler

- Status changed from In Progress to Resolved
- Target version set to v10.2.6

#10 - 02/23/2017 11:26 AM - Kefu Chai

- Duplicated by Bug #19054: *mark an osd down sooner once we have collect enough reports added*
