<b>Description</b> recently the ceph-ansible had run a code that can only be run on existing ceph cluster, we assume all the nodes are clean but check /var/lib/ceph, should add /var/run/ceph to check as well, there seems to be possibility of /var/run/ceph being left behind from ansible snippet. <a href="https://github.com/ceph/ceph-ansible/blob/stable-2.2/roles/ceph-common/tasks/checks/check_socket.yml#L4">https://github.com/ceph/ceph-ansible/blob/stable-2.2/roles/ceph-common/tasks/checks/check_socket.yml#L4</a>
