

Calamari - Feature #7410

Add some examples for bulk DELETE and PATCH to docs

02/13/2014 10:25 AM - Yan-Fa Li

Description			
From John Spray: A related question. The docs indicate we can do bulk deletes and patches but it doesn't show any examples. Could we add some please? I wouldn't worry about this too much, the salt key resource is the only ones that supports the bulk ops at the moment, the body of what you send is like [{ 'id': 'foo', 'attribute': 'bar'}, { 'id': 'foo2', 'attribute2': 'baz'}] for a PATCH, and just leave off all attributes other than 'id' for a bulk DELETE. Go ahead and open a ticket for adding more detail to the docs.			

History

#1 - 02/24/2014 03:10 PM - John Spray - Category changed from Backend (REST API) to Docs (REST API)
#2 - 02/24/2014 03:10 PM - John Spray - translation missing: en.field_story_points changed from 1.0 to 3.0
#3 - 03/18/2014 04:53 AM - John Spray - Assignee deleted (John Spray)
