FWIW I filed this based on reading RGWPutMetadata::execute() during a review:

https://github.com/ceph/ceph/blob/6f44f7a0a9847e419ce2783164633efa71218380/src/rgw/rgw_op.cc#L1940

#4 - 01/23/2015 08:13 AM - Dmytro Yurchenko

- Status changed from New to In Progress

Sending new metadata to an object will erase existing ones too.

I couldn't test it, because development version has troubles with returning back bucket's custom metadata.

So I had to fix that first. I will provide both fixes in one patch.

Implemented correct metadata merging and deletion according to:

<http://docs.openstack.org/api/openstack-object-storage/1.0/content/delete-container-metadata.html>

Now testing and improving the patch before publishing it.
