Description			
when -v is used, we should spit out a little message when we change the Owner during a source->dest copy			

History

#1 - 05/08/2011 10:35 PM - Sage Weil

- Target version changed from v0.28 to v0.29

#2 - 05/10/2011 09:41 AM - Sage Weil

- Category set to obsync

#3 - 05/10/2011 10:51 AM - Sage Weil

- translation missing: en.field_story_points set to 1

- translation missing: en.field_position set to 666

#4 - 05/10/2011 10:51 AM - Sage Weil

- translation missing: en.field_story_points changed from 1 to 2

- translation missing: en.field_position deleted (666)

- translation missing: en.field_position set to 666

#5 - 05/26/2011 03:42 PM - Colin McCabe

- Status changed from New to Won't Fix

The owner of the object we create is determined by the access key and secret key supplied by the user. It can never be anything other than that, so there seems to be little point in warning.

I guess the "rgw:" target can support setting the owner to some arbitrary value, which sounds like it would be useful.
