Description

Skip objects when size/mtime and attrs match on source and destination. Or sync always. (Make it an option.)

We don't have a fancy md5sum to rely on to compare content, but for pools with rgw content, the attrs will change (that store the md5sum) so comparing attrs+size/mtime is sufficient.

History

#1 - 05/09/2011 04:33 PM - Sage Weil

- translation missing: en.field_position set to 4

#2 - 05/10/2011 10:47 AM - Sage Weil

- Status changed from New to Resolved

- translation missing: en.field_position deleted (5)

- translation missing: en.field_position set to 5

#3 - 05/19/2011 10:12 AM - Sage Weil

- translation missing: en.field_story_points set to 3

- translation missing: en.field_position deleted (11)

- translation missing: en.field_position set to 11
