Description	
wuxingyi < wuxingyi2015@outlook.com > writes:	
The service name for ceph rados gateway was changed to "ceph-radosgw", the previous version of service name "radosgw" would cause a failed reload, and finally make it impossible to write any log data to the log file.

History

#1 - 06/16/2015 07:32 PM - Nathan Cutler

Fixed in master: <https://github.com/ceph/ceph/commit/9df3f798179481fe8ae6ae873dcb793de7d8f367>

#2 - 06/16/2015 07:32 PM - Nathan Cutler

- Status changed from New to Pending Backport

#3 - 06/16/2015 07:52 PM - Nathan Cutler

- Subject changed from *rgw/logrotate.conf calls service with wrong daemon name* to *rgw/logrotate.conf calls service with wrong init script name*

- Backport changed from *hammer* to *hammer,firefly*

#4 - 06/23/2015 12:44 PM - Nathan Cutler

firefly spec file says:

```
install -D src/init-radosgw.sysv $RPM_BUILD_ROOT%{_initrddir}/ceph-radosgw
```

which to me implies that the service is called ceph-radosgw as early as firefly - the name change must have taken place even earlier.

#5 - 08/15/2015 05:07 PM - Nathan Cutler

- *Project changed from rgw to devops*

- *Status changed from Pending Backport to Resolved*
