Description			
Run one or more components through valgrind. Maybe in teh ceph: section something like			
<pre>- ceph: valgrind: mds.0: mon.a: --tool=memcheck</pre>			
or something similar. The valgrind output would end up in a log file in the output dir.			

History

- translation missing: en.field_position set to 7

#9 - 08/15/2011 05:08 PM - Greg Farnum

- Status changed from New to In Progress

Have it working for the monitors; something's broken with the other daemon types. Also, it's grabbing archives before the daemons exit so you don't see the valgrind info. :/

#10 - 08/17/2011 10:45 AM - Greg Farnum

- Status changed from In Progress to Resolved
