Description			
<ol style="list-style-type: none">1. some distros need to start rpcbind before2. trying to use nfs while others don't. start_rpcbind: true			
It seems, on its face, that it should be possible to start rpcbind only if it's not already running and avoid having to configure this per-distro. andrewschoen couldn't remember details when documenting the var, so this task is to determine whether the var is really necessary, or if we can't sense this condition automatically.
