Backport:	hammer,infernalis	ceph-qa-suite:	
Regression:	No	Pull request ID:	
Severity:	3 - minor		
Description			
Seems 'rbd unmap' calls udevadm settle in krbd.c line 524:			
<pre>} else { /* * libudev does not provide the "wait until the queue is empty" * API or the sufficient amount of primitives to build it from. */ string err = run_cmd("udevadm", "settle", "--timeout", "10", "--quiet", NULL);</pre>			
When I run that command on a Debian Jessie standard installation I get the following error:			
1. udevadm settle --timeout 10 --quiet Code should not be reached 'Unknown argument' at ../src/udev/udevadm-settle.c:87, function adm_settle(). Aborting. Aborted			
There is no '--quiet' flag.

- Status changed from Need Review to Pending Backport

#7 - 01/13/2016 09:44 PM - Mark Chaney

Is there something holding this back from being backported? I can't remove any images until this is resolved for hammer on Debian Jessie.

#8 - 01/14/2016 02:13 PM - Nathan Cutler

The hammer fix has been merged: <https://github.com/ceph/ceph/pull/6530>

It should be included in the 0.94.6 release.
