

Ceph - Bug #15036

doc build full of warnings and errors, sphinx-build exits with success

03/10/2016 12:16 AM - Dan Mick

Status:	New	Start date:	03/10/2016
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	documentation	Estimated time:	0.00 hour
Target version:	v10.0.4	Spent time:	0.00 hour
Source:	Development	Reviewed:	
Tags:		Affected Versions:	
Backport:		ceph-qa-suite:	
Regression:	Yes	Pull request ID:	
Severity:	3 - minor		

Description

part of admin/build-doc:

```
$ build-doc/virtualenv/bin/sphinx-build -a -n -b dirhtml -d doctrees doc build-doc/output/html
```

```
...
```

```
build succeeded, 315 warnings.
```

```
$ echo $?
```

```
0
```

Adding **-W** makes the first **warning** exit, but why do the **ERRORs** currently present not at least make sphinx-build exit with an error, and what do we do about it?

See attachment for how broken it all is

History

#1 - 03/10/2016 12:17 AM - Dan Mick

- Subject changed from doc built full of warnings and errors, sphinx-build exits with success to doc build full of warnings and errors, sphinx-build exits with success
