- translation missing: en.field\_position set to 9

##### #3 - 10/27/2011 03:55 AM - Alexandre Oliva

Any chance this is related with an issue I noticed last night, in which the primary mon was receiving and displaying (repeatedly?) messages issued by another mon as much as 3 hours before?

##### #4 - 10/27/2011 08:59 AM - Sage Weil

Not sure exactly what you mean, but that sounds a bit like the behavior when the encoding changes and the monitors aren't upgraded in unison. If you just upgraded to latest master (which includes a pg\_pool\_t encoding rev) make sure all the ceph-mon's are running the latest code.
