### History

#1 - 10/26/2011 11:39 AM - Josh Durgin

- *Description updated*

There might have been a bug introduced in snapshot contexts - two rbd tests got EINVAL when setting a snapshot, meaning the snapshot was not found.

**#2 - 10/26/2011 03:24 PM - Josh Durgin**

And the librados selfmanaged snaps tests also failed with an unexpected EINVAL when reading from a snapshot.

**#3 - 10/26/2011 05:46 PM - Josh Durgin**
