Description			
RADOSGW of Ceph v10.2.2 relies on FCGI, but the upstream source for this no longer actually exists.			

History

#1 - 11/18/2016 08:18 PM - Ken Dreyer

Confirmed, the latest fcgi upstream URLs are completely gone.

<http://fastcgi.com/dist/fcgi-2.4.0.tar.gz> is that last URL where the tarball was available, and it is currently a 404. <http://www.fastcgi.com/> is a placeholder page, nothing to do with the libfcgi project.

From what Matt's told me, the RGW team intends to remove libfcgi entirely from Ceph before the Luminous release.

#2 - 11/18/2016 08:23 PM - Ken Dreyer

- Tracker changed from Support to Tasks
- Project changed from Ceph to rgw

#3 - 05/04/2017 09:26 PM - Thomas Serlin

- Assignee set to Matt Benjamin
- Priority changed from Low to Normal
- Target version set to v12.1.0
- Release deleted (jewel)
- Affected Versions v12.1.0 added
- Affected Versions deleted (v10.2.2)

After talking today with Matt Benjamin, it's not clear whether we want to completely take out fcgi for the Luminous release -- we will confirm at the next RGW meeting; some people may want it to stay in.

However, it sounds like turning fcgi off as a default should be easy and shouldn't present a problem.
