Description			
Enable caller to kick off a scrub and later check completion (may just mean caller has to compare scrub stamps with a return value from the call to initialize scrub).			
When doing this, also update the tests in test_forward_scrub to use this to wait for their scrubs to complete (currently there are some sleeps and some waits for cluster log messages in there).			

History

#1 - 04/09/2018 07:59 PM - Patrick Donnelly

- Subject changed from *When starting forward scrub, return handle or stamp/version which caller can wait for* to *mds: when starting forward scrub, return handle or stamp/version which caller can wait for*
- Assignee set to *Patrick Donnelly*
- Target version changed from *v12.0.0* to *v14.0.0*
- Source changed from *other* to *Development*
- Tags set to *scrub*
- Backport set to *luminous,mimic*
- Component(FS) *MDS* added

#2 - 09/12/2018 01:22 PM - Patrick Donnelly

- Assignee changed from *Patrick Donnelly* to *Venky Shankar*

#3 - 03/07/2019 11:21 PM - Patrick Donnelly

- Target version changed from *v14.0.0* to *v15.0.0*

#4 - 01/23/2020 01:23 AM - Patrick Donnelly

- Status changed from *New* to *Resolved*
- Backport deleted (*luminous,mimic*)
