

rgw - Feature #21301

expose --sync-stats via admin api

09/08/2017 04:20 AM - Nathan Johnson

Backport: luminous jewel	Pull request ID:
Description It would be useful to allow passing a "sync" path parameter along with the "stats" flag to the user info admin api call, to simulate the radosgw-admin cli call: radosgw-admin user stats --uid=<uid> --sync-stats

History

#1 - 09/08/2017 04:55 AM - Yatin Kumbhare

/admin/user?format=json<uid>=%s&stats=true #without --sync-stats

Which adds "stats":{"num_kb":X,"num_kb_rounded":X,"num_objects":X} to user info.

adding --sync behaviour would make that api blocking call, since it would get actual usage stats.

adding --sync behaviour would make that api blocking call, since it would get actual usage stats.

That is true, it would be a blocking call.
