

Ceph - Subtask #2282

Cleanup # 2041 (Resolved): osd: move peering into worker threads

Handle map updates on a per-pg basis

04/13/2012 09:44 AM - Samuel Just

Description

Currently, we advance all pgs to the next map at once. This requires us to flush the filestore queue and basically halt all outstanding work for the duration of the update. In principle, we should be able to advance pgs mostly independently.
