@batrik I assume suites are: `fs`, `kcephfs`, `nutlimds` ? more?

#2 - 05/16/2018 05:34 PM - Patrick Donnelly

That's it I guess. Should also find a way to make `k testing` the default unless distro == RHEL.

@Warren - wonder if it easy doable to add `yaml` configuration so if suites ^ run on `rhel` then `k testing` is used as Patrick is asking. Otherwise we can use `--filter`
