Regression:	No	Component(RADOS):	CRUSH
Severity:	2 - major	Pull request ID:	
Description			
The output json string is invalid for "ceph osd crush tree --format=json" command. It contains an array of "nodes" and an array of "stray", but not wrapped in a json object, and the array of "stray" was not implemented. I have an applications which depends on the output of the above command which will occur json parse error.
