Description

The details of the Ceph pools in the listing are relatively raw displayed. This should be enhanced and the details should be refined optically.

Data Table

- Replica size is only valid for replicated pools.
- The "type" defines, which column is valid.
- The minimum number of replicas is missing. Maybe even as an optional column.
- Show the pool quota.

Details

- Show Replica size only for replicated pools.
- Only show erasure code profile on erasure coded pools.
- Add a mouse over or hyper link for the properties.
