hit this again on commit:4b6deda44192db6e5a65488ceefa8c0cef2d82df, saved output to fatty:~sage/ceph/src/out.rstat.snap.goof/. looks like a problem with the dirty_old_rstat stuff?

- Target version set to v0.22

#7 - 09/20/2016 10:54 AM - John Spray

- *Project changed from Ceph to fs*
- *Category deleted (1)*
- *Target version deleted (v0.22)*

Bulk updating project=ceph category=mfs bugs so that I can remove the MDS category from the Ceph project to avoid confusion.
