Description			
We have some class unitests now (lock, refcount). We should be able to run these through a teuthology task.			

History

#1 - 09/10/2012 11:29 AM - Sage Weil

- Target version set to v0.53c
- translation missing: en.field_position set to 1
- translation missing: en.field_position changed from 1 to 1393

#2 - 09/11/2012 09:58 AM - Sage Weil

- Assignee set to Sage Weil

#3 - 09/17/2012 02:11 PM - Josh Durgin

We don't need a separate teuthology task for this, it could just be another workunit. A localfs task that sets up the environment expected by the workunit task would be useful.
