Duplicates Ceph - Bug #3221: disconnect_session_watchers missing pg		Resolved	09/25/2012

History

#1 - 12/12/2012 03:12 PM - Samuel Just

The assert is bad, no guarantee that the pg is still around after we drop the watch_lock. remove_watchers_and_notifies would have been called in the intervening journey from Primary-Active to Stray-Purged.

#2 - 12/12/2012 05:20 PM - Sage Weil

- Status changed from In Progress to Duplicate
