rbd - Subtask #37529

Tasks # 24409 (New): [namespaces] implement namespace support within RBD

[namespaces] mirroring should support namespaces
12/05/2018 06:30 PM - Jason Dillaman

Status: Resolved
Priority: Normal

Affected Versions:
Pull request ID: 28939

Description
Allow the storage administrator to configure the peers within the default namespace but store the list of mirrored images within new "rbd_mirroring" objects per namespace. This implies that the rbd-mirror daemon needs to scan multiple namespaces to determine which images require mirroring.
