Description

New changes in ceph-ansible (see: <https://github.com/ceph/ceph-ansible/pull/3435>) now require that ceph-facts be included always.

Before that change, in the ceph-volume test suite, the role was added conditionally since it didn't exist for stable-3.2 but it did for master. Basically we need to remove this:

```
# mimic and luminous are tested with the ceph-ansible branch
# stable-3.2 and this role is not available there
- name: run ceph-facts role
  import_role:
    name: ceph-facts
  when:
    - ceph_dev_branch not in ["mimic", "luminous"]
```

Other consumers of ceph-ansible that use roles independently like ceph-volume will be affected.
