Description

This is due to the recent messenger overhaul. specifically:

<https://github.com/ceph/ceph/blob/7fa1e3c37f8c7fb709ae9e070a3154a7084c0584/src/mds/MDSDaemon.cc#L1309>

I believe we should be using `get_peer_socket_addr()` instead.

Example failure:

```
