**Description**

An issue has been introduced in a previous implementation [1]. It has been fixed [2], but due to time constraints, the corresponding and requested end-to-end test was not implemented.

The test shall verify that the list of pools is automatically reloaded after a pool has been created.

**Steps:**

1. Create a pool
2. Verify it's listed
3. Delete the pool
4. Check if it's gone in the UI

#4 - 02/01/2019 08:16 AM - Laura Paduano
- Subject changed from mgr/dashboard: Write E2E test for automatic reload of pool list to mgr/dashboard: Write E2E test to verify a pool has been deleted

When deleting a pool the pool list gets refreshed, so it should be verified that the pool does no longer show up after the automated page refresh.
