non-trivial - the fix touches code that appears to have been refactored for nautilus

The luminous backport <https://github.com/ceph/ceph/pull/27342> involved cherry-picking a large number of commits. Assigning to the author of that backport.

#4 - 08/20/2019 06:10 AM - Venky Shankar

This needs <https://github.com/ceph/ceph/pull/28452> (tracker <https://tracker.ceph.com/issues/38131>) to be merge for the changes to apply sanely.

Holding off the backport for now.

Closing as Mimic is EOL.
