Description	
I got a crash while testing the new libatomic-based atomic_t, but I don't think it could have been caused by the change. Segfault on a null-valued Session.

#3 - 04/15/2010 10:49 AM - Greg Farnum

- Status changed from In Progress to Closed

Can't reproduce. The code actually had a bad memory leak at the time and was causing the machine to run out of memory; it's possible that a call to new returned NULL and the first deref crashed out. Certainly everything looks fine.
