**Description**

The idea is to show the number of gateways that are up and down, similar to what we have for OSDs:

|  |   |
|--|---|
| <b>OSDs</b><br>3 total<br>3 up, 3 in             | <b>Manager Daemons</b><br>1 active<br>0 standby |
| <b>Metadata Servers</b><br>1 active<br>2 standby | <b>iSCSI Gateways</b><br>3 total                |
