Nevermind, closing my PR.

#6 - 04/11/2019 04:37 PM - Nathan Cutler

@Igor, thanks. If you're going to be doing a lot of backporting, you might look into `src/script/ceph-backport.sh` (in "master" branch). It really makes the process much faster/easier.

Also there is `src/script/backport-create-issue` for automatically creating the backport issues.
