rgw - Bug #40022

multisite: 'radosgw-admin bucket sync status' should call syncs_from(source.name) instead of id

05/24/2019 08:58 PM - Casey Bodley

Regression: No Pull request ID: 28243
Severity: 3 - minor Crash signature (v1):
Reviewed:

Description
If a zone is set up with sync_from_all=false, the bucket sync status command will incorrectly report "not in sync_from" because it's calling 'zone.syncs_from(source.id)', where syncs_from() expects a zone name instead of id
