- Related to Feature #39999: mgr/dashboard: Prevent brute-force/dictionary attacks against existing local user accounts added

#3 - 05/06/2020 09:29 AM - Lenz Grimmer

Per our conversation during today's standup, let's split this issue up by moving "Rate limiting: per-user/token" and "Cache-control private for every response containing personal sensitive information" into separate issues and keep the focus of this issue on the limiting failed logins. However, I wonder if this isn't captured in [#39999](#) already?

#10 - 12/16/2020 09:25 PM - Avan Thakkar

- Status changed from Fix Under Review to Resolved

#11 - 01/08/2021 05:43 AM - Nizamudeen A

- Status changed from Resolved to Pending Backport

- Backport set to octopus, nautilus

#12 - 01/08/2021 05:46 AM - Backport Bot

- Copied to Backport #48794: octopus: mgr/dashboard: REST API: security added

#13 - 01/08/2021 05:46 AM - Backport Bot

- Copied to Backport #48795: nautilus: mgr/dashboard: REST API: security added

#15 - 01/12/2021 11:09 AM - Nizamudeen A

- Backport changed from octopus, nautilus to octopus

#16 - 01/14/2021 04:13 PM - Nathan Cutler

- Backport changed from octopus to nautilus, octopus

Re-adding nautilus to backport field because, without it, the presence of the rejected nautilus backport issue causes the "backport-create-issue" script to complain:

```
ERROR:root:https://tracker.ceph.com/issues/40914 has more backport issues (,nautilus,octopus) than expected (octopus)
```

#18 - 01/27/2021 06:14 PM - Nathan Cutler

- Status changed from Pending Backport to Resolved

While running with --resolve-parent, the script "backport-create-issue" noticed that all backports of this issue are in status "Resolved" or "Rejected".
