<b>Description</b> During writing Teuthology tests for Dashboard/Orchestrator integration, I found it will be handy if we can specify dummy data in test_orchestrator. Currently, there are some dummy data, but that's not flexible enough for testing.  My proposal is to add two commands in test_orchestrator module:  <b>test_orchestrator load:</b> load dummy data from a JSON file <b>test_orchestrator dump:</b> print out current dummy data

##### #2 - 08/08/2019 03:31 PM - Kiefer Chang

test\_orchestrator dump: print out current dummy data

This is unlikely needed because we can dump devices/services in orchestrator\_cli.

##### #3 - 08/12/2019 07:20 AM - Kiefer Chang

- Status changed from In Progress to Fix Under Review
