Backport:	ceph-qa-suite:
Regression: No	Pull request ID:
Severity: 2 - major	Crash signature:
Description	
Nautilus dashboard does not work with ceph-iscsi v11, which is the latest one. To fix this, the following PR needs to be backported: - https://github.com/ceph/ceph/pull/30011	
For the above to be smoothly applied, the following backport needs to be merged: - https://github.com/ceph/ceph/pull/30545	
The only workaround is to downgrade the ceph-iscsi version.	

History

#1 - 11/04/2019 11:59 AM - Ernesto Puerta

- Affected Versions v14.2.0, v14.2.1, v14.2.2, v14.2.3, v14.2.4, v14.2.5 added

#2 - 11/06/2019 08:49 PM - Nathan Cutler

Can this be closed as a duplicate of [#41576](#)? (The backport referred to in the description is already being handled via that ticket.)

#3 - 11/13/2019 10:14 AM - Ernesto Puerta

- Status changed from New to Closed
