Description drain + destroy + zap + create	

History

#1 - 01/27/2020 07:37 PM - Sage Weil

The 'orchestrator service-instance redeploy osd \$n' works now, inasmuch as it lets you upgrade the osd code to a new container image. Is that what this ticket is for? Or are you thinking drain + destroy + zap + create (e.g., "repave")?

#2 - 01/28/2020 09:37 AM - Sebastian Wagner

- Subject changed from redeploy osds to repave osds
- Description updated

Yeah. Didn't know that "repave" is something special. the Trello card was not self-explanatory. I've renamed this to "repave"
