#### Description

If you want to provision a new host, the workflow will be like

##### 1. Add this new host

```
ceph orch host add <hostname>
```

##### 2. Call `device ls`

```
ceph orch device ls --hostname <hostname>
```

##### 3. create or re-use a drive group

```
ceph orch ls --service_type osd --export > osd_specs.yaml  
vi osd_spec.yaml  
ceph orch apply -i osd_specs.yaml
```

This workflow should be added to the documentation
