- Status changed from 12 to In Progress

I added some tests for various cases of this. They all pass on v0.60 and the next branch consistently in several configurations. They fail on bobtail though. I'm looking for what fixed them so it can be backported.

- Status changed from In Progress to Pending Backport

This bisected to 860493e7ff0d87d02069b243fc1c8326ce0721f9. Fortunately, this is going to be backported anyway.
