| Backport: octopus, nautilus | Pull request ID: 37392 |
| Regression: No | Crash signature (v1): |
| Severity: 3 - minor | Crash signature (v2): |
| Reviewed: | |
| Description | |
| <pre>+ ./admin/build-doc Top Level States: ['PeeringMachine'] Already using interpreter /usr/bin/python3 Using base prefix '/usr' New python executable in /home/jenkins-build/build/workspace/ceph-pr-docs/build-doc/virtualenv/bin/python3 Also creating executable in /home/jenkins-build/build/workspace/ceph-pr-docs/build-doc/virtualenv/bin/python Installing setuptools, pkg_resources, pip, wheel...done. ERROR: After October 2020 you may experience errors when installing or updating packages. This is because pip will change the way that it resolves dependency conflicts. We recommend you use --use-feature=2020-resolver to test your packages with the new resolver before it becomes the default. sphinx-autodoc-typehints 1.11.0 requires Sphinx>=3.0, but you'll have sphinx 2.4.3 which is incompatible.</pre> | |
