

teuthology - Bug #48058

ceph task fails for interactive teuthology use.

Severity:	3 - minor	Crash signature (v2):	
Description Since this commit: d2ff5c5eb60 qa/tasks/cephadm.py: add ceph logs directory in job's info.yaml interactive ceph teuthology jobs fail unless the teuthology job is told to "archive" its output. This is certainly always true of batch jobs, but for interactive jobs, this is not necessarily the case. Other parts of the code check to see if ctx.archive is set before using it, the logic in this commit should do so as well.
