## History

### #1 - 12/16/2021 03:59 PM - Sebastian Wagner

I have a hard time believing this issue is real.

```
find * -name '*.py' | grep -v -e tox -e tests | xargs grep 'get_daemon('
cephadm/inventory.py: def get_daemon(self, daemon_name: str, host: Optional[str] = None) -> orchestrator.DaemonDescription:
cephadm/inventory.py:     self.get_daemon(daemon_name)
cephadm/module.py:     d = self.cache.get_daemon(daemon_name)
cephadm/module.py:     dd = self.cache.get_daemon(daemon_name)
```
