Description	
0. Test region setup	
Test 0a: check that default gateway acts as master	
<ul style="list-style-type: none">- create user on first gateway (intended master)- place data under user- set up master region, zone (logs turned on)- update regionmap- restart gateway as the zone in the master region- try to access user's data	

History

#1 - 07/19/2013 01:10 PM - Ian Colle

- Target version set to v0.67rc-continued

#2 - 07/19/2013 01:16 PM - Yehuda Sadeh

- translation missing: en.field_story_points set to 3.00

#3 - 07/19/2013 01:25 PM - Ian Colle

- Assignee set to Greg Farnum

#4 - 07/23/2013 11:52 AM - Anonymous

- Assignee changed from Greg Farnum to Anonymous

#5 - 08/02/2013 01:03 PM - Ian Colle

- Status changed from New to In Progress

#6 - 08/04/2013 03:15 PM - Anonymous

I have code out for review. Branches are:
s3-tests: wip-buck-next-2
teuthology: wip-buck-5602

This work is predicated on teuthology branch wip-buck-extend-s3readwrite going in. That branch adds missing functionality (the ability to use overrides: in a YAML file to specify options for the s3readwrite task and the ability to configure the s3-tests branch to use for the test run)

#7 - 08/16/2013 01:05 PM - Ian Colle

- Target version changed from v0.67rc-continued to v0.68

#8 - 08/16/2013 01:06 PM - Ian Colle

- Target version changed from v0.68 to v0.68 - continued

#9 - 08/21/2013 10:24 AM - Anonymous

- Status changed from In Progress to Resolved

This test case was checked into ceph-qa-suite as suites/rgw/singleton/all/rados-convert-to-region.yaml
commit #c37faa8cf90abe54cba051b045edfe4ab9750bbc
