History

#1 - 11/22/2013 01:43 PM - Neil Levine

- Subject changed from Get all Ceph installation package dependencies from EPEL etc, into either ceph or ceph-extras to Get all Ceph installation package dependencies from EPEL etc, into either ceph or ceph-extras for Dumpling

#2 - 11/22/2013 01:54 PM - Ian Colle

- Target version set to v0.74

#3 - 12/01/2013 09:58 PM - Anonymous

- Status changed from 12 to In Progress

#4 - 12/02/2013 03:36 PM - Anonymous

- Status changed from In Progress to Resolved

Same package list as for emperor (see [#6590](#)).

#5 - 12/03/2013 10:02 AM - Neil Levine

Can you also generate a list of the dependencies from the base-distribution that need to be installed for Ceph?

Someone commented that some users do a minimal-OS install which leaves lots of packages out so we need to document the prerequisites.
