#### Description

In calamari, currently the infrastructure required to support localization is limited to Dashboard and Graphs. This should be extended to support localization in 'Manage' part as well.

As the management part is written as separate application, new localization infrastructure needs to be introduced.

#### History

##### #1 - 09/30/2014 10:46 AM - Christina Meno

- Tracker changed from Bug to Feature

##### #2 - 10/21/2014 10:34 AM - Christina Meno

- Subject changed from UI: Support localization for 'Manage' to LOCALE: Support localization for 'Manage'

- Category set to UI

- Target version set to 1.3 backlog

##### #3 - 11/18/2014 07:01 AM - Christina Meno

- Target version deleted (1.3 backlog)
