**Description**

It seems that [9cde1f44a57cd630a66e77ed3d59127d91834d09](#) has broken the writing of pidfiles for OSD's, but it could also due to [6966c3eda74064e766e22c21203ea30f97910f32](#)

My MON and MDS write their pid fine, but the OSD's don't:

```
root@atom0:~# ls /var/run/ceph/  
$type.$id.pid  
root@atom0:~#
```

#### History

##### #1 - 04/04/2011 08:32 AM - Sage Weil

- Assignee set to Colin McCabe

Colin, can you verify whether this affects 0.26 too before I tag that release today? Thanks!

##### #2 - 04/04/2011 09:21 AM - Colin McCabe

This doesn't occur for me at change [6966c3eda74064e766e22c21203ea30f97910f32](#). It is not in 0.26.

##### #3 - 04/04/2011 09:39 AM - Colin McCabe

I'm afraid I'm not able to reproduce this in master. Can you try again with head-of-line and see if it is fixed there?

If that doesn't work, then I guess we need to look at the config file that you're using.

Colin

##### #4 - 04/04/2011 10:30 AM - Wido den Hollander

- File *ceph.conf* added

Just tried with [d94142221153ec985c699ad69c3925136f3a30de](#) still the same result.

My *ceph.conf* is attached

##### #5 - 04/04/2011 11:23 AM - Colin McCabe

I think I know what's going on here. Will fix in a little bit.

**#6 - 04/04/2011 11:58 AM - Colin McCabe**

- Status changed from New to Testing

This should be fixed by [0e26ece4e366972cbcbaf76db75df8d4512e361e](http://0e26ece4e366972cbcbaf76db75df8d4512e361e)

**#7 - 04/04/2011 12:15 PM - Wido den Hollander**

Yes, that works for me. PID's are correct now.

**#8 - 04/04/2011 01:10 PM - Sage Weil**

did this break cconf? <http://ceph.newdream.net/gitbuilder/log.cgi?log=0e26ece4e366972cbcbaf76db75df8d4512e361e>

**#9 - 04/04/2011 02:34 PM - Colin McCabe**

- Status changed from Testing to Resolved

confirmed fixed.  
ccconf is fixed too.
